

Academic Reference

The gateway to Chinese latest research development

Academic Reference is the most comprehensive academic database collecting English resources published in China. It is a one-stop search and discovery platform allowing academics without Chinese proficiency to catch China's academic development and society data of all aspects. It includes 2.6 million English full-text articles and 14 million English abstracts of various disciplines, covering journals, doctoral dissertations, masters' theses, conference papers, E-books, yearbooks and glossaries.
