Knimbus mLibrary: A Knowledge Ecosystem For Your Institution

About Us

Knimbus is on a mission to empower libraries to democratise knowledge using technology.

We strongly believe that knowledge is power, and technology is powerful.

Our proprietary, cloud-based platform enables all knowledge seekers-professors, students, and researchers to easily access relevant and credible content. The feature-rich admin dashboard is aimed to provide control, autonomy, and flexibility to the learned administrators who manage the institute's knowledge resources.

Customisable Portal
Design the portal according to your institution's branding

Content Hub
All resources in one place: subscribed & open access journals, ebooks, databases, multimedia, library OPAC and institutional repository.

Off-Campus Access
Users can securely access all the resources hosted by the Library from wherever they are.

eCatalog & A-Z List
A-Z listing of all resources categorised by subject, publisher, content type etc.

SSO & Security
Single-Sign On with robust security and privacy controls.

Universal Search
Single search box to find any content through multiple sources across the library.

knimbus
Your Library. Anywhere, Anytime.

DIGITAL TRANSFORMATION

Enable all library users to access trusted knowledge resources with just a click

Traditional Library Challenges

- Low usage of print resources

- No mobile app or off campus access

- Multiple systems: websites, IR, OPAC, search, etc.

- Reports need to be manually consolidated

- High cost of resources & infrastructure

Knimbus Powered Library

- **Integrated Digital Library**

- **Modern UI & personalised mobile app**

- **24x7 access from anywhere**

- **Seamless user experience**

- **Cost effective solution**
